

DESIGNS THAT SERVE

H2B, Inc. is a Service-Disabled Veteran-Owned Small Business (SDVOSB) founded by Ken Bryant and Tod Henning with the philosophy of providing our clients personalized, comprehensive project management, civil and structural engineering and design services. Since our inception in 2005, we have supported the Department of Veterans Affairs (VA), U.S. Army Corps of Engineers (USACE), and General Service Administration (GSA) at mission-critical federal facilities on projects ranging from new medical buildings and parking structures to complex infrastructure upgrades and campus-wide utility improvements.

H2B combines small-business responsiveness with large-program experience. Our multidisciplinary team delivers constructible, UFC-compliant designs through proven quality control, detailed coordination, and client-focused project management. Each assignment receives the same commitment to performance, safety, and innovation.

CORE CAPABILITIES / SERVICES

STRUCTURAL ENGINEERING

- Ground Up Construction
- Horizontal & Vertical Expansions
- Repairs/Renovations
- Forensic Investigations
- Bridges & Retaining Walls
- Pump Stations
- Seismic Resistant Design
- Blast Resistant Design
- Wind Resistant Design
- Peer Reviews
- BIM/CADD

CIVIL ENGINEERING

- Site Assessments and Design
- Roadway Design
- Subdivision Design
- Utility Design
- Transportation Analysis
- Utility Infrastructure Analysis
- Land Planning & Development
- Flood Mitigation
- Storm Water Detention/Mitigation
- Storm Water Pollution Prevention

PROJECT MANAGEMENT

- Coordination of A/E Disciplines
- Project Road Mapping/Tracking
- Management of Project Team
- Client Single POC
- Project Compliance/Closeout
- Scheduling
- Budgeting

"H2B is a great SDVOSB to partner with. They really care about serving our Veterans and go above and beyond to ensure the government is satisfied."

*-Tabitha Contreras, Contract Specialist
